Isocore's SDN/MPLS 2014 Huge Success!

RESTON, VA -- Isocore's annual conference on SDN/MPLS, held November 2014 attracted the highest number of attendees from the Service Providers. It broke the record of number of carriers attendees at the conference.

The conference was a huge success with the support of major sponsors, speakers, and the attendees. This year VMware, Juniper Networks, and QualiSystems were the super Platinum Sponsors.

Mr. Yukio Ito, SVP of Technology Development and member of Board of Directors of NTT Communications, gave an astounding keynote speech that left the audience stunned.

We appreciate everyone who made this a leading international event in emerging solutions and technologies. With excellent engagement from a variety of service providers and vendors, along with riveting panels, SDN/MPLS 2014 was a crucial event to attend for anyone serious about the development and deployment of new networking technology.

We look forward to seeing you in 2015 Nov 15-18!
